Hello! Thank you for taking the time to speak with me today about the Entry-Level RAG AI Engineer role. How are you doing?

Good, how about you?

I'm doing well, thank you. Let's get started with the interview. Could you tell me about your experience with retrieval-augmented generation (RAG) pipelines?

No, this is the test interview. Please send it.

I apologize for the confusion. I understand now that this was a test of the interview process. Thank you for clarifying. Is there anything else you need from me regarding this test scenario?
