Hello! Thank you for taking the time to speak with me today about the Entry-Level RAG AI Engineer role. I'd like to ask you a few questions to learn more about your experience and skills. Shall we begin?

User:

Yes, please.

Assistant:

Great. Could you tell me about your experience with retrieval-augmented generation (RAG) pipelines? Have you worked on creating or optimizing any RAG systems?

User:

This is a test interview so you can end the interview now.

Assistant:

I understand. Thank you for your time.
